

## Terra 5<sup>2</sup>

Terra 5<sup>2</sup> interconnects take the dynamic sound of WireWorld's Flat DNA cable design all the way down to the price of generic cables. The Terra 5<sup>2</sup> features mounded gold plated plugs.

**Cable Dimensions:** 3.5mm (T) x 10.5mm (W)

### Specification

<b>Construction:</b>	Flat Delineated Neutralizing Array™ (FDNA)
<b>Conductor type:</b>	Oxygen-Free copper (OFC)
<b>Insulation:</b>	High-density polyethylene (HDPE)
<b>Plug contacts:</b>	Gold plated brass
<b>Connectors:</b>	Moulded, gold/nickel plated brass
<b>Available length:</b>	1.0m, 2.0m, 3.0 & 6.0m only
<b>Available terminations:</b>	RCA-RCA (interconnect). F-RCA to 2x M-RCA & M-RCA to 2xF-RCA (adaptor 20cm)

## Luna 5<sup>2</sup>

With the highest quality materials and most advanced design in its price range, Luna 5<sup>2</sup> interconnect is the cable of choice for champagne quality sound on a beer budget. The Luna 5<sup>2</sup> features [Gold Tube™](#) for a pure copper signal path.

*“This 1m interconnect is in a much lower price bracket than the other three, but it still gives a balanced, enjoyable sound.”*

Verdict: Don't let the cheap price tag deceive you – the Luna 5 from Wireworld is a very solid budget performer.

### What Hi-Fi? SV, June '05

(Group included: Abbey Road Monitor Starquad £101, Black Rodium Ploar Rhythm £135, van den Hul Integration Hybrid £140 & Wireworld Luna £30)

*“It's also, we recon, a bit of a bargain with sound that extends effortlessly into the far treble and notably authoritatively in the bass too. We tried it in various situations and came out as a highly neutral and natural-sounding performer every time. Strongly recommended even for upmarket systems.”*

Hi-Fi Choice, Nov '05

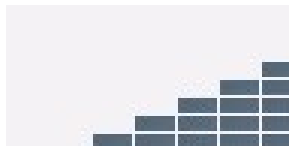

## Specification

<b>Construction:</b>	Flat Delineated Neutralizing Array™ (FDNA)
<b>Conductor type:</b>	Oxygen-Free copper (OFC)
<b>Insulation:</b>	High-density polyethylene (HDPE)
<b>Plug contacts:</b>	Gold/silver plated OFC
<b>Connectors:</b>	Gold Tube™
<b>Available length:</b>	1.0m, other lengths to order
<b>Available terminations:</b>	RCA-RCA only

## Solstice 5<sup>2</sup>

The Solstice 5<sup>2</sup> utilizes silver-clad OFC conductors in WireWorld's unique FDNA cable design, to increase the clarity and dynamic punch of home theatre system. The Solstice 5<sup>2</sup> features [Gold Tube™](#) for a pure copper signal path.

*"Superb detail and stereo imaging over the entire spectrum, coupled with articulate bass and excellent timing."*

AV Review, Aug '08

### Specification

<b>Construction:</b>	Flat Delineated Neutralizing Array™ (FDNA)
<b>Conductor type:</b>	Oxygen-Free copper silver-clad (OFC Au)
<b>Insulation:</b>	High-density polyethylene (HDPE)
<b>Plug contacts:</b>	Gold/silver plated OFC
<b>Connectors:</b>	Gold Tube™
<b>Available length:</b>	0.5m & 1.0m, other lengths to order
<b>Available terminations:</b>	RCA-RCA only

## Oasis 5<sup>2</sup>

Oasis 5<sup>2</sup> is the least expensive cable that utilizes WireWorld's superior Helical Delineated Neutralizing Array™ cable design and Silver Tube™ plugs to dramatically improve the definition and dynamics of popularly-priced AV systems.

The Oasis is also available as balanced XLR.

*“The result is uncanny openness and smoothness. It’s disarmingly neutral, in a way that few others [such as VdH and LFD cables at over twice the price] are. There’s an eerie lack of glint and sheen – no chrome plated midband, spitty treble or leaden bass here! Rather, the music flows forth largely untrammelled, with tremendously accurate tonal colouring. Bass is wonderfully liquid – not boomy or overblown, but natural and fluid sounding. The result is an extremely self effacing and transparent cable.”*

*“A seriously big hitter for the money, and as such comes heartily recommended.”*

**Hi-Fi World and Computer Audio** – February 2004

*“There’s plenty of detail and excellent imaging, but also a distinct dark tonal character that is something of an acquired taste.”*

<b>Construction:</b>	Helical Delineated Neutralizing Array™ (HDNA)
<b>Conductor type:</b>	Oxygen-Free copper (OFC)
<b>Insulation:</b>	High-density polyethylene (HDPE)
<b>Plug contacts:</b>	Silver clad OFC
<b>Connectors:</b>	Silver Tube™
<b>Available length:</b>	0.5m & 1.0m, other lengths to order
<b>Available terminations:</b>	RCA-RCA & balanced XLR

## Equinox 5<sup>2</sup>

The Equinox 5<sup>2</sup> provides amazing value to owners of premium quality AV systems, as it retains the unique performance advantages of WireWorld's Eclipse Series, for a price that fits a wide range of systems.

The Equinox 5<sup>2</sup> features WireWorld's unique Helical Delineated Neutralizing Array™ cable design and utilises [Silver Tube™](#) plugs for optimum connectivity. The Equinox is also available as balanced XLR.

*"The first thing to strike me was good rhythm and timing on offer, allied to a firm, crisp, upbeat character, with clean percussive bass lines, a very neutral midrange – particularly evident on vocals – and well balanced, high definition treble."* (Equinox interconnect)

*"In view of their overall balance of quality they now help to set the standard in their price ranges and will certainly be joining my reference cable library."*

**Hi-Fi News & RR, June 2004**

(Joint review of Atlantis speaker cable & Equinox interconnect)

*"...There's certainly plenty of information, and the treble is particularly praiseworthy for its smooth and unfussy extension. With full-bodied and clear bass too, it's well worth a punt."*

Hi-Fi Choice - Awards Issue, Dec '04

### Specification

<b>Construction:</b>	Helical Delineated Neutralizing Array™ (HDNA)
<b>Conductor type:</b>	Ohno Continuous Cast copper (OCC Cu)
<b>Insulation:</b>	High-density polyethylene (HDPE)
<b>Plug contacts:</b>	Silver clad OFC
<b>Connectors:</b>	Silver Tube™
<b>Available length:</b>	0.5m & 1.0m, other lengths to order
<b>Available terminations:</b>	RCA-RCA & balanced XLR

## Eclipse 5<sup>2</sup>

Utilizing the same world-class design as the Silver and Gold Eclipse cables, Eclipse 5<sup>2</sup> is the cable for those who refuse to compromise when it comes to preserving the natural timbre of instruments and voices.

The Eclipse 5<sup>2</sup> features WireWorld's unique Helical Delineated Neutralizing Array™ cable design and utilises [Silver Tube™](#) plugs for optimum connectivity.

The Eclipse is also available as balanced XLR.

### Specification

<b>Construction:</b>	Helical Delineated Neutralizing Array™ (HDNA)
<b>Conductor type:</b>	Ohno Continuous Cast copper (OCC Cu)
<b>Insulation:</b>	Teflon
<b>Plug contacts:</b>	Silver clad OFC
<b>Connectors:</b>	Silver Tube™
<b>Available length:</b>	0.5m & 1.0m, other lengths to order
<b>Available terminations:</b>	RCA-RCA & balanced XLR

## Silver Eclipse 5<sup>2</sup>

Second only to the Gold Eclipse 5<sup>2</sup>, in its preservation of sonic textures and dynamics, Silver Eclipse 5<sup>2</sup> is the cable for listeners who demand pristine fidelity from their high- end component systems.

The Silver Eclipse 5<sup>2</sup> features WireWorld's unique Helical Delineated Neutralizing Array™ cable design and utilises [Silver Tube™](#) plugs for optimum connectivity.

The Silver Eclipse is also available as balanced XLR.

### Specification

<b>Construction:</b>	Helical Delineated Neutralizing Array™ (HDNA)
<b>Conductor type:</b>	Ohno Continuous Cast silver-clad copper (OCC Ag copper)
<b>Insulation:</b>	Teflon
<b>Plug contacts:</b>	Silver clad OFC
<b>Connectors:</b>	Silver Tube™
<b>Available length:</b>	0.5m & 1.0m, other lengths to order
<b>Available terminations:</b>	RCA-RCA & balanced XLR

## Gold Eclipse 5<sup>2</sup>

Gold Eclipse 5<sup>2</sup> is the cable for perfectionists with elite reference standard audio systems. Supremely transparent, with breathtaking dynamics and holographic imaging, Gold Eclipse provides the closest sound to the ultimate purity of a direct connection.

The Gold Eclipse 5<sup>2</sup> features WireWorld's unique Helical Delineated Neutralizing Array™ cable design and utilises [Silver Tube™](#) plugs for optimum connectivity.

### Specifications

<b>Construction:</b>	Helical Delineated Neutralizing Array™ (HDNA)
<b>Conductor type:</b>	Ohno Continuous Cast solid silver (OCC Au)
<b>Insulation:</b>	Teflon
<b>Plug contacts:</b>	Silver clad OFC
<b>Connectors:</b>	Silver Tube™
<b>Available lengths:</b>	0.5m & 1.0m, other lengths to order
<b>Available terminations:</b>	RCA-RCA & balanced XLR
